

Topics to speak about

You will use this list of topics in several ways:

- discuss them in small groups
- develop lists of questions on a topic
- expand your vocabulary related to each topic
- speak solo and off the top of your head for a specified time.

The numbering matches what you can get with two dice. You roll the dice to get a topic, then use a sand timer to time your speaking. Dice and timers and more variations of this activity will be provided in class.

- | | |
|-------------------------------------|--|
| 11. Personality | 41. Cell phones |
